Maths Day

On Maths Day Year 3 were challenged to take a recipe and work out which supermarket would be the cheapest to buy the ingredients. They used their LORIC skills to work together as a team and showed resilience when working out some tricky maths, especially when the teachers surprised them with some half price items to calculate.

For their LORIC activity, Mr Spiller's maths group started their 'Theme Park Maths project, planning the construction of their own theme park! They practised mapping out the rides using different polygons to represent different rides, developing their understanding of interior angles within polygons and the technical skill of using a protractor.

Miss Richards Class Assembly

Miss Richards class taught us all about their Autumn topic in their class assembly. They covered many periods in history, giving us some fascinating facts about groups such as the Anglo-Saxons, Romans and Vikings. The children used drama to bring to life some of the most interesting parts of the topic and showed off their warrior skills with their ferocious singing about invasions!

Sporting Events

Basketball

Well done to our year 5 and 6 basketball team, competing in the North Charnwood basketball event. The team grew throughout the event, and their performances seemed to improve in each game they played.

Hockey Team

A fantastic performance from our year 3 and 4 hockey team, who competed in the North Charnwood Hockey event. The team finished top in their group, without losing a game! After this, the team advanced into the semi final which, unfortunately, they lost. However, they then went on to finish 3rd after playing the 3rd and 4th play offs match. Mr Harris was extremely proud of the team for all competing at such a high level, with great team spirit.

Spring Show

Congratulations to Year 3 and 4 who wowed the school with their performance of Dragon Days for their Spring Show before half term. Over the course of just a few weeks, the children showed great levels of initiative and organisation to learn the lyrics and their role inside out before displaying great levels of Charlie Communication skills to bring the play to life. Thank you to all of the adults involved in the production.
